

FAEL LUCE WE LIGHT UP THE DREAMS OF FUTURE CHAMPIONS

Agrate Brianza, December 15, 2014 - It took place in a genuine and exciting atmosphere the inauguration of the lighting system of Palace of fencing in Jesi (Ancona, Italy) occurred during award ceremony with the delivery of the "Gold Collar", the highest honor, assigned by the President of the Italian National Olympic Committee's (CONI), Mr. Giovanni Malagò.

Founded in 1947 by Mr. Ezio Tricoli, also well known as the master of fencing, the Club has become over the years hotbed of great champions and unique in the world with assets of more than 20 medals. The town of Jesi, European City of Sport for 2014, is a source of pride for the whole Nation and has been compared, by the President Malagò himself, in Maranello for Ferrari or Alba for Nutella.

"We are very proud to have illuminated this prestigious structure and attended the official switching on operated by the same President Mr. Malagò - said the Commercial Director of Fael Spa Roberto Parravicini - For us it is a pleasure illuminate the dreams of future champions of fencing that only this club will let grow and will represent our Nation with dignity in the world competitions". The Director, in front of the presence of the world champions Mrs. Valentina Vezzali and Mrs. Giovanna Trillini, thanked for the opportunity, as well as the President of the Italian National Olympic Committee's (CONI) Mr. Malagò, also the regional president of CONI and member of the National Board, Mr. Fabio Sturani, the Governor of Marche region Mr. Gian Mario Spacca and Dr. Mrs. Giulia Pavese from the Regions.

But many thanks went to the Director of the Technical Office of Fael Spa, Ing. Sangiorgio, for his capacity to develop a product of the latest design, with optics designed in-house, which guarantees the structure an excellent light stability and uniformity as well as a total absence of glare. All this ensuring a remarkable economy of management of the plant in terms of the electrical costs and lighting devices.

The President of Fael Spa, Luciano Parravicini is said also satisfied stressing how this intervention has been strongly backed by the company: "With this action we wanted to contribute effectively to the right illuminance levels of the structure, and be also a reference for other Italian sports facilities. The values of this sport and its potentiality were decisive in preferring this reality than others, and start a collaboration that we hope will be a harbinger of mutual satisfaction. Our reality, history and tradition and our products entirely Made in Italy, bind us further to that structure, inexhaustible source of National fencers, who will worthily represent our nation in future championships."
