

## FAEL LUCE IS SPONSOR OF THE INTERNATIONAL YEAR OF LIGHT 2015

Agrate Brianza, February 10, 2015 – The 2015 is the International Year of the light (IYL2015), as declared by the Executive Committee and the General Conference of UNESCO. Fael LUCE is sponsor of the event to highlight the company's commitment in favor of knowledge and awareness of every human being on the way in which the light-based technologies can promote sustainable development and provide solutions to global challenges, in energy, education, agriculture and health.

LIGHT is the raw material of Fael and the basis of our civilization.

As developers and manufacturers of floodlights, the team of Fael LUCE recognizes the strategic importance of its business for the company and for the context in which it operates and shares, in everyday life, some of the goals that the UN hopes to reach thanks to this initiative. In particular: to *promote the technologies of light for a better quality of life*, through the study and the patenting of optics that can *reduce light pollution and energy waste*, through the integration of the new LED light sources, harmonizing emotion and functionality, with the aim of improving the wellbeing and the quality of life... For the good of all.

---

*Fael Luce is a leading company in the supplying of innovative and sustainable lighting systems. The huge range of products includes lighting systems for large areas and sport facilities, urban lighting, industrial and commercial structures. Established in 1965, headquartered in Agrate Brianza (Italy), FAEL Luce experienced a vast development, that allowed her to be present in several markets worldwide, where exports the 70% of her production.*
